*Subject: Invitation to a training session
on AP determination in cheese
(fluorimetric method)*

Dear Colleagues,

Some of you have expressed interest for a training session on AP determination in cheese.

In response to your request, EURL Milk and Milk products will organize a training session preceding the forthcoming Workshop (Thursday 3 to Friday 4th October 2013), and will open it to all NRLs.

The training session will take place over two days, **from Wednesday 2 October, 13:30 to Thursday 3 October noon time**, and the venue will be our laboratory at Maisons-Alfort. Please note that to take the best advantage of the training, **the session is particularly addressed to the those who carry out the analysis in the laboratory.**

Our capacity for this training session will be 5 trainees. Thus depending on the number of applicants, we may need to make a selection.

Please note that costs linked to the participation to the training should be covered by the EURL (please see attached procedure).

Whether you are coming to the training session or not, would you please fill in the participation online form by 19 August 2013 latest:

<https://www.enquetes.anses.fr/formation2/eurl-mmptrainingsession/questionnaire.htm>

Please feel free to get back to us for any further information or clarification needed,

Best regards,

PO Laurent LALOUX
Laboratory Director
