

FMDV DETECTION AND TYPING : DECISION TREE

1. PURPOSE AND SCOPE

Diagnostic methods for FMD detection and typing are described in the WOAH Terrestrial Manual 2022. This document sums up the diagnostic strategy as a decision tree describing the workflow for implementation of the different methods prescribed. All methods used, including commercial kits, must be OIE-based methods validated according to international standards and used successfully in the annual PT.

2. DECISION TREE
